

MUCH BLOOD SHED
AT CHICAGO TODAYTHE POLICE AND STRIKERS
CLASH AGAIN.

One Shot Down and Two Officers Are Dangerously Injured—Riot Calls Brought Every South Side Reserve Officer to the Illinois Steel Company's Mills.

Chicago, May 8.—Riot calls sent every south side reserve police officers scurrying to the Illinois Steel Company's plant in South Chicago this afternoon, and wagon loads of officers were soon combatting the mob congregated there. Clubs, stones and revolvers were freely used. The wounded are:

WELLS, WILLIAM, policeman, dangerously hurt.
MCCAFFREY, JOHN, policeman, injuries probably fatal.
WILKOWSKI, JOHN, striker, shot by an officer, and injuries thought to be fatal.

The mob was finally dispersed, but serious trouble is expected any minute. Yesterday's battle was one of the most serious riots in the history of the town. Four hundred strikers stormed the buildings, broke down the gates and attempted to drive all the workmen from the rail mills, blast furnace and machine shops. A series of hard fights ensued in each of the buildings. A riot call was turned in. Capt. Jenkins with nine policemen arrived on the scene in a few minutes. The policemen attacked the rioters, who were armed with iron bars, coupling pins, clubs and stones. Although outnumbered the police drove the rioters outside the main gate, where a savage fight occurred, in which all the police were more or less injured. Probably 100 of the rioters had their heads cracked. Twenty-six of their number were arrested, all of whom were more or less hurt. Many wounded rioters were carried off by the crowd.

The report was circulated early in the evening that an attempt would be made to blow up the powder magazine belonging to the Illinois Steel company on the lake front. It contains thousands of pounds of explosives, and the mere mention of such a possibility is enough to frighten the officials of the company into immediate action. Twenty picked policemen were sent to guard the place, with orders to arrest any one found loitering about the vicinity. The night scene about the offices of the company just inside the main gate was an unusual one. Nearly fifty special policemen were on guard.

The workmen assert that enough men are not employed to divide the work fairly, and that they are not receiving wages that will enable them to live. They say if one-third more men were employed on the furnaces the work could be divided in eight-hour shifts instead of twelve. They also think they should have \$2.10 a day.

Trouble and daylight are expected to come at the same time at South Chicago this morning. Until late last night the strikers were holding secret meetings all over town. They say they have the company just where they want it and that it must accede to their demands or put in new men before noon. It appears that the various blast furnaces are now loaded and running. Unless the fires are kept up the whole half molten mass will solidify and by running the furnaces put the company to a tremendous expense.

The Illinois Steel Company probably appreciates this fact much better than the strikers, and it means to keep those fires up. This it can only do by hiring new men to take the places of the strikers, and the company may have a hard time doing it. There are 150 policemen in and around the works now, all the saloons around the place have been closed down and rigid patrol obtains for four blocks around. Still the strikers cluster, and twice the number of police can't stop them. They are perfectly orderly and move along when told, but they take mighty good care no worker gets inside the gates. It has been given out quietly that early this morning the company will run in men to take the place of the men who quit. They will have no trouble in getting the men, but running them in may be quite another thing. Every freight train that runs to the works is being quietly and unostentatiously inspected by the strikers on the chance of its containing men. The police have more than their hands full and cannot watch the whole town.

Inspector Hunt, Capt. Jenkins, and Lieut. Melaniphy remained on duty throughout the night, and, although no trouble was expected, two patrol wagons, with a full complement of men, were kept standing before the door all night. The company will not give out its plans, but it is understood generally it will put men to work this morning. South Chicago is filled with unemployed men.

According to Manager Walker the men who are now out on strike have absolutely no grievance in the matter of reduction of wages. The wages paid, it is admitted, are low, but no higher have been paid for five years. The charge that the men have been suddenly cut from \$2.10 to \$1.60 a day, Mr. Walker says, is absolutely false. Three thousand men are now out of work as a result of the strike and riots, and the immense plant practically is shut down. The whole trouble came about through thirty or forty common laborers, who struck Monday afternoon for more wages and fewer hours.

AT JOLIET 1,500 MEN ARE OUT.

Entire Plant Probably Will Be Closed by the End of the Week.

Joliet, Ill., May 8.—The switchmen, engineers and firemen, and ingot men of the steel works in this city are on a strike for higher wages, with nearly 1,500 men out. The ingot men, who were receiving \$1.50 for twelve hours work, want \$1.80, the engineers want their wages raised from \$1.32 to \$1.65, the firemen who are getting \$1.50 de-

mand \$1.65, and the switchmen want a raise to \$1.80 from \$1.50. The repair shop, blast furnaces, machine shops, foundries, blacksmith and boiler shops, and carpenter and pattern shops are all in operation, but it is expected the entire plant will have to close by the latter part of the week.

Strike Threatened on Hennepin Canal.

Princeton, Ill., May 8.—Complications between the various government foremen and their employes on the Hennepin Canal have arisen and the latter to the number of over 400 threaten to strike unless certain rules are adopted. The trouble broke out a few days ago when two foremen, James Simpson and George Robbins, under threats of discharge compelled the men to subscribe to the amount of \$30, which sum had been assessed against the two foremen in the police court for assaulting various workmen. The men also claim that part of their pay is held back upon being discharged, and that they are obliged to take a certain part of their pay in orders on particular saloons. At these and other practices were not abolished the men would quit work at once.

Status of the Ohio Strike.

Columbus, O., May 8.—The status of the Ohio miners' strike at Corning is that all are out and orderly. Everybody is out at Bellaire, and the outlook in the town and on the coal roads is reported to be discouraging. The miners at Cambridge also are all out and quiet. The operators are in sympathy with the miners.

Virginia Strikers Peaceable.

Roanoke, Va., May 8.—The only movements of the troops in the coal fields yesterday was the removal of Capt. Perkins' command from the Browning mines to Pocahontas. Private dispatches state the danger of rioting is past and that the presence of the troops will deter the miners from any lawlessness.

Coal Miners Suspend Work.

Akron, O., May 8.—The coal miners in this vicinity, except in the Silver Creek and the Wadsworth districts, have suspended work pending the settlement of the scale. Several hundred at Mineral Point, Lake View, Thomastown, and Hametown are out.

Convention of Machinists.

Cincinnati, May 8.—The international convention of machinists discussed the report on referenda. A majority opposed the plan of 100 delegates being supreme and the State rights plan of the lodges was retained as heretofore.

Miners Told to Quit.

Springfield, May 8.—The miners of Shelbyville, Curryville, Star City, Jackson Hill, Hymera, and Alum Cave, Ind., through instructions from headquarters, have been notified to cease work until the convention meets at Terre Haute Friday, May 10.

Are Holding a Conference.

Sheboygan, Wis., May 8.—The strikers and manufacturers are holding a conference to-day.

INCREASE IN MEMBERSHIP.

Advance Guard of A. P. A. Delegates to Supreme Council at Milwaukee.

Milwaukee, Wis., May 8.—The meeting of the supreme council of the A. P. A. will be the largest which has been held. The increase in membership has come principally from the South and the New England states. The question of affiliation or consolidation with the Canadian Protective association will be one of the important questions which will come before the council. On account of the mutual interests of the American Protective association and the Canadian Protective association it was deemed best to unite the councils of both countries. It is said the Canadian Protective association controls the Canadian elections. Secrecy will not be removed from the work of the order by this council, although the subject of making the ritual public will be discussed. It is expected the business of the session will be completed in three days. So far as can be learned there has been no talk thus far about the probable successors to the present officers.

GRESHAM AND HITT IMPROVING

Fleurbaey Is the Secretary of State's Assistant.

Washington, May 8.—Secretary Gresham and Congressman Hitt showed marked signs of improvement yesterday afternoon. It is now eight days since the Secretary of State was attacked with pleurisy, and while his progress toward recovery has been slow, it has nevertheless been gratifying as well as satisfactory to those watching him. Every day he increases in strength and health and in the course of a few days he may be able to go South. In this connection, it is understood, arrangements are being made whereby Secretary Gresham will go to Asheville, N. C., and take the same quarters as those occupied by Vice-President Stevenson and his family a short time ago.

Income Tax Arguments Resumed.

Washington, May 9.—One of the features of the income tax cases in the Supreme court is the strict attention the members of the court are paying to the arguments. Assistant Attorney-General Whitney resumed his argument yesterday, and afterward Attorney-General Olney addressed the court. Mr. Olney was immediately followed by Mr. Choate. Before he had concluded the court adjourned, and Mr. Choate will conclude his argument today.

Correspondent in Danger.

Washington, May 8.—Acting Secretary of State Uhl has called Acting Consul General Springer, at Havana, to immediately protest to the Spanish authorities against the trial by military court of Manuel Fuentes, the New York World correspondent. The consul general has been enjoined to act speedily in the matter, as there is some apprehension that Fuentes' life is in danger.

U. S. SHIP RANGER
SENT TO ECUADORAMERICAN INTERESTS SAID TO
BE IN DANGER.

Boat Is Sent to Keep Watch of the Revolution—Mail From That Country Is Held Back—Cuban Insurgents Attack Two Towns—Cable News.

Washington, May 8.—The fact leaked out at the navy department that the United States steamer Ranger had been ordered from Buena Ventura, Columbia, on May 2, to Esmeraldas, a port in Northern Ecuador, where she probably has been for the last four days, the voyage being only about 450 miles in length. This order was issued at the request of the state department, where it was said the request had been made because the department had been convinced by representations made by Americans having interests in Ecuador that it would be wise to do so.

New York, May 8.—Exporters in this city who do business with Ecuador are complaining that their mail from Quito has not arrived for some time. An Ecuadorian said he had received news from Guayaquil that the revolutionists had cut telegraph wires between Quito and Guayaquil, thereby shutting off communication between New York and the capital. Reports say also that Gen. Alfaro had returned to Ecuador and was leading the rebels at Esmeraldas. The revolutionists have captured the towns of Ibarra, Esmeraldas, Guaranda and Laticuica. At Guaranda a battle was fought in which sixty men were killed. Strict press censorship has been established. Editors of newspapers in Guayaquil have been put in prison by order of the new governor of Guayaquil, Senor Fernando Garcia. Among the prisoners is Luiz Carbo, editor of El Tiempo, Carbo came here during the World's Fair at Chicago, and later wrote a book entitled "Ecuador at Chicago."

INSURGENTS GROWING BOLD.

Attack Two Towns, Burn Houses, and Destroy Railroad Tracks.

Havana, May 8.—Dispatches received here say great indignation has been caused in the Province of Santiago de Cuba by the fact that Antonio Maceo, the insurgent leader, has removed the rails of the railroad near Christo, causing the derailment of a train and the injury of a number of people.

The insurgents yesterday attacked the town of Christo and burned three houses. During the engagement the Spanish troops lost one killed and six wounded. The loss of the insurgents is not known. The insurgents also made an attack upon the town of Caney and burned one house before they were compelled to retreat.

Preparing to Defend Bluefields.

Colon, Colombia, May 8.—The Nicaraguan authorities at Bluefields are hastening extensions of the fortifications on the bluff at that place. It is believed this action is due to the fact that the deposed Chief Clarence, now a British pensioner at Jamaica, has asked Great Britain to take steps looking to restoring him to authority. The steamship lines have been notified on behalf of the Nicaraguan government that the port of Corinto is now open.

Severe Earthquake in Argentina.

Buenos Ayres, May 8.—There was a severe earthquake yesterday at Mendoza, capital of the province of that name. The inhabitants were terror-stricken and fled from the town. Mendoza is situated about fifty-five miles southeast from the volcano of Aconcagua. The place was destroyed by an earthquake in 1869.

Michigan Swamp Land Titles Fixed.

Cincinnati, Ohio, May 8.—In the cases brought by the Michigan Land and Lumber company against Charles H. Rust, Packwoods & Co., and Myron Bauman, Judge Severens has affirmed the opinion of Judge Swan of the United States District court of the Eastern division of Michigan. The cases involve about 35,000 acres of land, valued at nearly three-quarters of a million dollars, and located in Michigan. This practically settles the swamp land cases of Michigan. The Michigan Land and Lumber company, by this decision, loses about \$500,000, the present market value of the land, although it cost only about \$2,500 originally.

Mexican Senate Votes Approval.

City of Mexico, May 8.—The senate has voted approval of the settlement of the Guatemala-Mexican frontier row.

M'MASTERS SENT UP
BY JUDGE BAILEYTHE EAU CLAIRE EMBEZZLER
GETS TWO YEARS.

Boards of Trade Roasted By the Court As the Reason of Many a Man's Downfall—Benjamin Bixby Is Acquitted—Lively Contest For the Inter Urban Franchise.

Eau Claire, May 8.—Harry B. McMaster, the defaulting assistant cashier of the National Bank of Eau Claire, was this morning sentenced to serve two years at Waupun, by Judge Bailey. The court took occasion to give the board of trade a terrible scolding, saying that most of the suicides and embezzlements were the result, as in this case, of the attempt to beat the market. It was generally supposed that after McMaster had pleaded guilty that Judge Bailey would sentence him for one year, the shortest term possible. The proceedings in the federal court were begun at the request of the bank people either because they feared Judge Bailey's sentence would be too light or because they became convinced he had no jurisdiction, but he took the bit in his teeth.

Fight Over the Inter Urban.

Menasha, May 8.—The Menasha common council last night postponed action Tillotson Inter Urban franchise for one week, on the claim that the old application expired with the outgoing council and that a new application must be filed. Green Bay parties are also after the franchise, and a lively contest is expected.

Mill at Cashton Burns.

Cashton, May 8.—John Schmitz's sawmill plant near this place was burned today, and the loss is \$4,000, with no insurance.

HE MUST ANSWER.

Chicago Merchant Held by Illinois Senate for Contempt.

Springfield, Ill., May 8.—Frank H. Cooper of the firm of Siegel, Cooper & Co., Chicago, may go to jail after all for refusing to answer the questions about the firm's business which the senate has been propounding for some time. Yesterday the senate excused Cooper from answering questions regarding how much it costs the firm a year for advertising, but insisted upon the merchant telling the amount of business done last year. When Mr. Cooper refused to tell he was placed in charge of the sergeant-at-arms.

House bill appropriating \$100,000 for the construction of the Western Insane hospital was advanced to third reading. Higbee's bill permitting organization of insurance companies in this state other than fire and life after a number of amendments were adopted, was advanced.

In the house a joint resolution offered by Senator Evans fixing the date of sine die adjournment at May 24, came up as special order. For a time it looked as though the matter was going to create some bitter discussion. Finally its consideration was postponed until one week from next Wednesday. It is now generally conceded that a final adjournment will not be had until after the democratic state convention. Many members express the opinion that if the session closes before June 15 they will be greatly surprised.

A bill appropriating \$50,000 for the Eastern Illinois Normal school was called up on second reading and advanced. Snedeker's bill, requiring flags on school houses, and Jones' of Iroquois bill to elect railroad and warehouse commissioners, were advanced to third reading. Payne, from the joint committee on enrolled bills, reported house bill 618 (the gas frontage bill), as enrolled and laid before the governor.

The House took up Senator Bogardus' bill allowing the infliction of capital punishment for train robbery, and without debate or amendment advanced the same to third reading. It will be sent to the House some day this week.

The tragedy on the Alton road a few days ago wherein an engineer was shot down at his post by a band of train robbers has attracted the attention of the entire Legislature to the bill. The necessity for such legislation is apparent to every one, and the bill will be landed in the Governor's office with all possible speed. It has the endorsement of the railroad companies, the express companies, all of the Chicago banks, many of the heaviest business houses, and thousands of the law-abiding citizens of the State. Mr. Needles called up on third reading the Senate bill appropriating \$56,128 to defray the running expenses of the State Reformatory at Pontiac until July 1. It was passed—yeas 111, nays 9.

MORE INDEMNITY FOR JAPAN.

Surrender of Liao Tung Compensated by an Additional Ten Million.

London, May 8.—The Times says it is reported that in consideration of her abandonment of all claims to Liao Tung Japan will receive an additional indemnity of £10,000,000. In other respects, the surrender to Russia is unconditional. The Times says: "Japan is to be congratulated upon her good sense and the self-control of her statesmen. We rejoice that she recognized the wisdom of not pushing her pretensions too far. Russia is to be congratulated upon the success of her diplomacy. Events show how prudent it was for Japan to compel China to accept definite terms before replying to the powers."

NOW FOR EGYPTIAN QUESTION.

France Says Russia Must Render Service in Nile District.

Paris, May 8.—The press, generally speaking, is satisfied with the course Japan has adopted in regard to the remonstrances of the powers as to the terms of the treaty of peace with China. Naturally, however, there are a few dissenting voices. The Lanterne, for instance, says: "We shall be the dupes of Russia unless the agreement of the three powers also applies to a settlement of the Egyptian question and Russia returns on the banks of the Nile the service she has just received from us."

Japan's Course Applauded.

London, May 8.—A dispatch to the Times from Paris says that Japan has surpassed the hopes of the friends of peace and even the conditions arranged by Russia, France and Germany. Like every power who knows its own mind, Japan is prompt in her resolutions and does not seem to desire to prolong the controversy by the adoption of half-measures.

The Cholera in Russia.

London, May 8.—A dispatch to the Times from Odessa says that advice from the cholera infected districts show that the epidemic is seriously increasing. Unless measures are immediately taken the disease is likely to spread throughout Russia and reach the rest of Europe.

The site will cover not only the present exposition grounds, but will take in the adjoining land of the Mountain Royal Park, 121 acres in all. The buildings will be Oriental in character. Venice and its gondolas, Cairo's streets, and the Midway Plaisance will be among the attractions.

France Takes a Hand.

Paris, May 8.—It is said France is negotiating with Japan regarding the recession of Formosa and the Pescadores Islands to China. France insists in the event of Japan holding the islands the strength of the Japanese garrisons and the number of warships be limited.

New York, May 8.—The Expectation States and the Brooklyn Handicap will be run on the opening day of the Brooklyn Jockey club races, May 13.

SHEBOYGAN STRIKE

Sheboygan, May 8.—This morning's conference between the strikers and the employers was devoid of fruit, and Mayor Born was unable to bring them to any understanding. No men returned to work, as they claimed to be afraid to do so. Another conference is set for 3 o'clock this afternoon, but no arrangement is expected, as the men will only accept the wages of 1892.

FULTON GORDON HEARING.

Legal Battle at the Start Over Admitting a Confession.

Louisville, Ky., May 8.—The examining trial of Fulton Gordon, who killed his wife and Arch Dixon Brown a week ago, was up yesterday in the City Court. Col. James Andrew Scott of Frankfort was present at the request of Gov. Brown. Marmaduke Bowden, on behalf of the Bush family, said it would take no part in the trial. There was a hot argument over the admission of Gordon's statement to the officers after the killing. Gordon's counsel asserting that he was in such a condition as not to be able to make an intelligent statement. The prosecution contended that all the evidence went to show that Gordon had acted coolly and deliberately and that his confession to the police should be admitted. Judge Thompson took the question under consideration.

AN ALIBI FOR DURRANT.

His Attorneys Find Important Evidence in the Williams Case.

San Francisco, May 8.—Theodore Durrant's attorneys have discovered evidence which will enable them to establish an alibi for their client, so far as the Williams murder case is concerned. A Market street hair dresser says Minnie Williams was one of her regular patrons. She says Miss Williams entered her shop at 8 o'clock the night of her disappearance. She saw her hair dressed, leaving the shop at 8:25. It is estimated that by taking the car immediately she could not have reached Emanuel church until 8:50. Durrant's counsel argued Durrant could not have therefore escorted her into the church and murdered her and then walked in to Dr. Vogel's house, where he arrived at 9:15.

State of Texas Is Broke.

Austin, Tex., May 8.—The state treasury, when it closed last night, was pronounced "busted" by Treasurer Wortham. The passage of the general appropriation bill by the legislature just closed made the state liable at once for \$614,000. To pay this amount there was only \$100,000. The bill became effective yesterday and warrants were drawn, and within six hours every cent of the \$100,000 in the treasury was taken out, and there is now a shortage of \$514,000.

Oil Found Near Redfield, Kan.

Fort Scott, Kas., May 8.—Considerable excitement was caused in the western part of this (Bourbon) county yesterday by the striking of a strong flow of coal oil at a depth of but nineteen feet on the farm of M. W. Twiner, three miles south of Redfield. He was drilling for water.

FIRE POLICE MEET IN SOCIAL SESSION

ENTERTAINED BY DR. AND MRS.
W. H. PALMER.

Their Twenty-Ninth Anniversary Was
Most Pleasantly Marked Last Even-
ing With a Dinner and Toasts—
The Tales Told by the Members In
Response Thereto.

FIRE fighters told of
fire fighting at the
home of Dr. and
Mrs. W. H. Pal-
mer last evening,
when the fire po-
lice met with the
host and hostess
in regular month-
ly session. The
day also marked
the twenty-ninth
anniversary of the company, and the
event was pleasantly commemorated.
Dinner was served at 6:30 o'clock and
music was furnished by the Baptist
Sunday school orchestra, composed of
C. P. Beers and Miss Elizabeth Palmer
and Luella Croft, violins; B. R. Lewis,
cornet; Dr. H. H. Dickinson, trom-
bone, and Miss Eloise Palmer
piano. Mrs. W. P. Sayles, Mrs.
W. H. Greenman and Mrs.

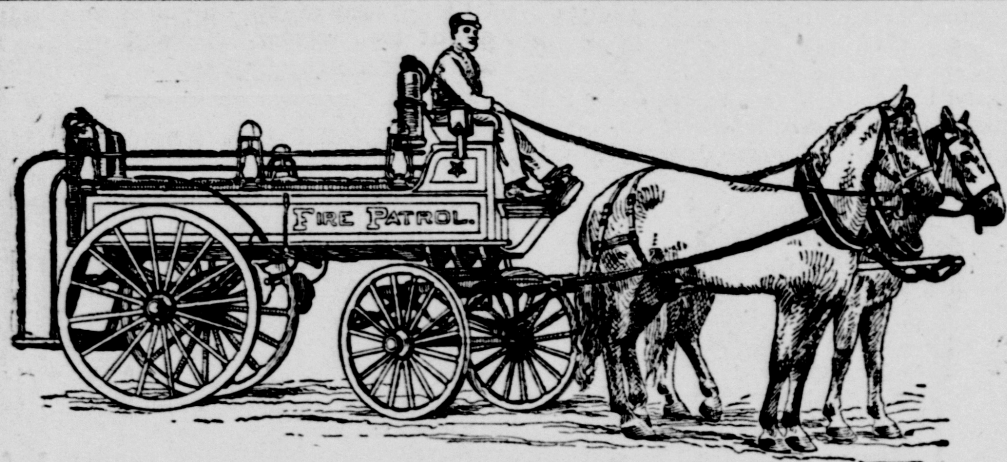

the worst enemies with which the
company has to contend. Warehouses
and other buildings are frequently
destroyed because smoke renders them
inaccessible. If in some way this could
be overcome it would result in saving
much valuable property.

"The Fire Police" was given to
Charles Atwood. His response cov-
ered the history of the company and
contained many words of encourage-
ment. Mr. Atwood is one of the old-
est members and has always been re-
cognized as one of the most active.

S. C. Burnham spoke entertainingly
of the "Fire Department" giving a
brief but concise history of the orga-
nization and development since 1853.
He recalled the installing of the hand
engines in 1855, and spoke feelingly
of the men who worked as volunteers
in the early days when it was all work
and no play. Steam replaced the hand
machines in 1868, and the water
works succeeded the steam eight
years ago. He was glad to note that
the department had kept pace with
modern improvement, and that today
it was recognized as one of the best in
the state.

Company and Insurance.

F. C. Haselton spoke of the com-
pany as "A Benefactor to Insurance".
This was recognized in all
large cities, where the in-
surance companies organized and
supported, an insurance patrol.
This service was efficiently rendered

H. W. Frick assisted Mrs. Palmer in
entertaining. After supper had been
announced, Secretary E. B. Heim-
street arose, and in the capacity of
toast master, assigned the subject
"The Sack Company," to the veteran
member, B. F. Crossett. Mr. Crossett
gave a brief history of the company of
which he was a member twenty-five
years ago. The first eighteen men to
be enrolled, he said, were: H. S. Shel-
ton, J. M. Haselton, John P. Hoyt, J.
M. Bostwick, E. L. Dimock, Charles
Holt, William L. Mitchell, E. H. Ren-
nett, S. W. Smith, M. C. Smith, John
J. R. Pease, William H. Tallman, S. C.
Spaulding, Isaac Woodlee, W. W. Hol-
den, R. J. Richardson, B. F. Pixley
and F. A. Kimball. Mr. Crossett's re-
sponse was timely, full of pleasant
reminiscences, and was much enjoyed.

Captain Evenson Called On.

Captain W. E. Evenson answered to
the subject "Obedience." He said he
had given the subject some attention
but that his manuscript had been
inadvertently mislaid and he could
only thank the company for their
promptness in obeying orders.

"The Merchant as a Fireman" was
assigned to Robert M. Bostwick who
responded in poetry manufactured for
occasion and containing some clever
hits that were thoroughly appreciated.

George McKee was called upon to
speak in behalf of "Our City." Mr.
McKee pleaded lack of time for prepa-
ration, and invited Dr. Henry Palmer
who was present to speak for him.
Dr. Palmer said in the past that he
had never been identified with the
Janesville Fire department possi-
bly because he came from an eastern
city where firemen were not tin good
repute. The year he left, out of 47
fires in four months 42 were set by
firemen. Many arrests were made
and several parties were convicted.
He came west. About the time he
arrived the Sack company was sug-
gested to him, and he at once con-
cluded that it was an organization for
plunder and kept out. He said some
good words for the fire police in con-
nection with the city and its pros-
perity.

"How to Catch the Wagon," was
given to W. H. Greenman. Mr. Green-
man claimed to be an expert in wagon
catching, especially on the home trip.
The records showed that during the
five years' membership he had only
missed the wagon eleven times in
going to fires that he had attended.
The fact that catching the wagon is
considered dangerous, lost caste when
it was known that Mr. Haselton was
always ready with an accident policy
to help the members out.

How to Carve The Company.

"Dissecting the Company" was as-
signed to Dr. W. H. Palmer. Every
member of the company realized that
he was an adept at the business before
he got through. The dissecting pro-
cess, told in rhyme and verse, abounded
in clever paragraphs and apt
allusions, many of them pertinent
and well-timed.

Fred Sheldon, "the infant member
of the company," was asked to tell
what he knew about "A Fireman in
Full Dress." He said that the alarm
usually turned in when he was on his
way to a party. His first experience
was in going to a fire in a hack;
his second, was a dwelling, where he
was ordered to do guard duty at a
door, and about the time he got cle-
verly at it, somebody turned a hose on
him. At his third fire his wardrobe
was damaged seven dollars' worth, to
say nothing about his feelings. He
had now ordered a Mother Hubbard
suit to be used in cases of emergency.

"The Press" was assigned to H. F.
Bliss, who closed a short paper with
the sentiment that the company might
all be found at the top of the aerial
ladder at the last conflagration.
Alderman Heddles contributed some
good suggestions on "Smoke," one of

in Janesville by a company of business
men, a service that he knew was well
appreciated by insurance companies.
"The Ladies" was assigned to W.
P. Sayles and he gave a brief but
happy response and the members
drank, at Mr. Sayles suggestion, to the
health of the ladies present. "How
to spend our evenings was left to
Fred Clemons. His lack of experi-
ence made it a little embarrassing for
him to offer many valuable sugges-
tions to such a com-
pany but of one fact he was thor-
oughly impressed and that was that
our host and hostess Dr. and Mrs. W.
H. Palmer, had given us a pleasant
evening. The sentiment was heartily
applauded and after a business meet-
ing and a social hour the company ad-
journed.

The members present were:
Capt. W. E. Evenson, Lieut. W. P. Sayles,
Lieut. R. M. Bostwick, W. H. Greenman,
H. F. Bliss, B. F. Crossett,
S. C. Burnham, S. B. Heddles,
F. C. Haselton, E. B. Heimstreet,
Charles Atwood, F. L. Clemons,
F. S. Sheldon, George M. McKee,
Dr. W. H. Palmer.

The absent members were:
Edwin Efield, R. J. Whitton,
C. D. Stevens, Dr. J. B. Whiting,
E. Ray Inman.

BRIEF BITS OF LOCAL NEWS

ALTHOUGH we sold the greatest
amount of shoes ever sold in Fond du
Lac, in the same length of time, we
held in reserve the best for Janesville.
We wanted to show you just what
kind of a stock we had, and the gen-
eral verdict is that it's the best ever
in the town, and think of the price,
50 cents on the dollar. Can't the
people hereabouts wear fine shoes this
season at the cost of the poorer grades?
Becker & Woodruff.

We have a line of shoes that we
defy anyone to beat, they are guar-
anteed to be genuine leather, and will
last through at least one rainstorm.
Children's dongola patent tip 75 cents,
boys school shoes, \$1, ladies dongola
fine shoe, patent tip, \$1.25, ladies low
shoes \$1. Lloyd & Son.

Did you ever hear of capes and jack-
ets at any such prices as we are offer-
ing them today. There are 100 of
them worth from \$4 to \$15, and all
go at the ridiculous low price of one
dollar each. No such bargains have
ever been offered before in this town.
Bort Bailey & Co.

It's one of those things that strike a
community but once in a lifetime.
The probabilities are that we could
hunt the country over and never find
a stock of shoes, comprising the best
makes in the land, so as to get at a
price to sell as we are, 50 cents on the
dollar. Just think of it! Strong &
Carroll, Nettleton, and Banister shoes.
No imitation. All the genuine stuff.
Becker & Woodruff.

We have a carriage repository down
our corner. We have in stock
more than three buggies for you to se-
lect from. We can show you a line of
goods that will please you in price as
well as in style. F. A. Taylor.

ALTHOUGH the stock is the largest
ever brought to Janesville, we are
fast cleaning it out, and those who
take advantage of the prices are the
ones who will thank us. No slowing
up, no stop in the rush, the best shoes
the world ever saw, 50 cents on the
dollar. Becker & Woodruff.

Too much cannot be said about
Henney buggies. We have been per-
sonally acquainted with them for
years and years, and we know to a
positive certainty that there is not as
good a buggy built. F. A. Taylor.

REVENUE MEN HERE LOOKING FOR LEAKS

AGENTS INSPECT THE LOCAL
SALOONS.

Their Business Was to Find Out
Whether Any of the Janesville
Dealers Sold Goods at Wholesale
On a Retail Government License—
Mission Unsuccessful.

Two government agents, who were
investigating the liquor traffic in this
city, stepped into a West Milwaukee
street saloon and asked the bartender
if he had a lantern. A light was
procured, and the two men made a
tour among the barrels in the cellar.
After making a few notes during this
investigation, they disappeared and
were not seen nor heard of again till
last week, when they stepped into an-
other West Milwaukee street saloon
and asked if they could purchase six
gallons of whisky. The bartender
said they could buy sixty-six
gallons if they wished, but they did
not purchase. It was
not long however before a third party
showed up, and after showing his au-
thority, went to work investigating
the books. He could not find that
there had been a sale at any one time
of over three gallons, which seemed
to straighten things out. The limit
of a retail license runs to five gallons.
Anything over that is classed as a
wholesale trade. A prominent dealer
in liquors remarked this morning that
these agents, or "spies" as he called
them, were continually on the go, in
the hopes of catching some infringer
of the law, who sells liquor both at
retail and wholesale on one license.

Although their investigation was
said to be a searching one, they did
not find that any local dealers had vi-
olated the law, although one firm were
told to paint over the word "whole-
sale" on their sign, or take out the
wholesale license.

RESOLUTIONS FOR REV. O. A. CURTIS

Tribute of Respect Accompanies a Hand-
some Gold Watch.

The friends of Rev. Olin A. Curtis
will be interested in reading the fol-
lowing resolution passed by his asso-
ciates in the Boston University. A
beautiful gold watch accompanied the
testimonials as a substantial reminder
of warm friendship. Mr. Curtis will
spend a year or more in study abroad.

"In consideration of the resignation
of our esteemed colleague, Professor
Olin A. Curtis, and his early depart-
ure for further study in Europe, we
desire to record our appreciation of
the valuable services which he has
rendered to the school during the six
years of his occupancy of the chair of
Systematic Theology.

"We have constantly admired his
deep christian sincerity, the vigor and
breadth of his intellectual life, his
profound interest in the spiritual and
social movements of our time, his mas-
terly sermonic gift, and, with all and
under all, his whole-hearted devotion
to the work of his department. We
have found it difficult not to envy at
once his ability to win the love of his
students and to impart to them a good
measure of his own enthusiasm for
the great truths of the christian sys-
tem.

"Gratefully remembering our col-
league's illustration and enforcement
of Christian manliness in our midst,
as well as the efficiency with which
he has fulfilled the scholastic demands
of his position, we heartily wish for
him abundant enjoyment in the special
opportunities for investigation
which he contemplates; and for the
church, during many years to come in
ever increasing measure, the rich
fruit of his labors as Christian prophet
and teacher."

J. A. Richardson, of Jefferson City,
Mo., Chief Enrolling force 38th gen-
eral assembly of Missouri, writes: I
wish to testify to the merits of One
Minute Cough Cure. When other so-
called cures failed. I obtained al-
most instant relief and a speedy cure
by the use of One Minute Cough Cure.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building, Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education. It will buy a buy a building lot. It will buy a piano and the lessons necessary to play upon it. It is more than many people are able to save in a life time. Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquillity, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

Beat Dumas on Remuneration.

Alexandre Dumas was much addicted to boasting of the high fees which he received for his articles. "That is pretty fair, no doubt," once said a stranger to him at a party. "How much was the highest fee you ever got?"

"Ten francs a line," replied Dumas. "Bah! that is nothing," replied the other gentleman. "I get about half a million francs a line!"

"Really?" rejoined Dumas, with an incredulous smile at the apparently outrageous piece of brag. "Pray, what are you?"

A MOTHER'S DUTY

TOWARDS HER DAUGHTERS.

Suggestions Which Bear Repeating, as Their Importance is Immeasurable.

(SPECIAL TO OUR LADY READERS.)

Only a few years ago even the medical profession scouted the idea that young girls could suffer from the misery of uterine troubles.

That form of disease, it was claimed, came only to married women.

When Lydia E. Pinkham first sent out the news of her great discovery, there was no lack of harsh speech from those whose practice and opinions she set at defiance.

But when young girls by the hundreds were absolutely cured by Lydia E. Pinkham's Vegetable Compound, then the tongues of the traducers were stilled, and faith was allowed to live in the hearts of the people.

Young girls are subject to this trouble. It robs them of the buoyancy of youth. It makes all effort distasteful.

It causes retention and suppression of menses, leucorrhoea, severe headache, waxy complexion, depression, weakness, loss of appetite and interest.

Certainly mothers ought to know that these are all symptoms of the one cause of nearly all the suffering that comes to women; and to save their daughters ought to begin treatment at once.

Lydia E. Pinkham's Vegetable Compound is the surest and most natural remedy for women ever compounded. It will accomplish its work with certainty.

THE "OFF YEAR."

While the year 1895 is an "off year" in politics, yet the year is recognized as important in the interest of the two great political parties. Several state elections will be held, and already active preliminary work is being done. In Iowa the free silver wing of the democratic party is striving for the ascendancy, hoping to gain substantial support from the populists in the state.

Ohio is having a similar experience, while Massachusetts is trying to steer clear of A. P. A. issue. The southern states are absorbed by the silver question, which is everywhere proving a great hindrance to democratic harmony.

In Wisconsin and other states where the off year is without particular significance, events will be closely watched, and results carefully considered. Democracy is noted for party loyalty, and yet the free silver cross that is just now demoralizing its ranks, will drive many good men out of the party if it becomes a national issue. There are many good democrats who place honesty in advance of party fealty. Men who will never consent by their vote to encourage a heresy as destitute of reason and common sense as was the greenback theory in its palmy days. Some good men in both parties are captivated by the alluring free and unlimited coinage doctrine, this was true of greenbackism, populism and every other ism that has ever been raised as a national issue. It was equally true of slavery. Some of the best people that were ever created belonged to the slave holding class. This argument proves nothing. Greeley was recognized as one of the most honest men that ever lived, and his memory will ever be honored as a vigorous exponent of the right as he understood it, and yet he was carried away with a currency heresy that would have brought ruin and dishonor to the nation. Honesty of conviction is a good thing to possess, but it may lack every element of wisdom and sound judgment.

The off year will be an eventful year in party politics. Democracy that just now is so thoroughly disorganized, will make a desperate effort to come together on some common ground of agreement, so as to be prepared for the campaign of 1896. Republicanism, never more harmonious than now, will endeavor to keep free from any entanglement that may lead to disaster. The issues of the next campaign will be protection to American labor, and a sound financial policy for the government. The republican party will be on the right side of these two great questions, and will win.

St. Louis is bidding for some of the large eastern cotton mills with fair chances for success. The argument used is saving of freight and cheap fuel. Some of the southern mills are running at a good profit. One of them reports an output of 18,000,000 yards last year and a net income of \$80,000.

Mr. and Mrs. Elizabeth Thorne, of New York City, celebrated their golden wedding anniversary by a divorce suit, Mrs. Thorne complaining that a domestic in the family had alienated her husband's affections. The case was settled by alimony out of court.

A company has recently been organized at Portland, Oregon, for slaughtering horses. The meat will be canned and the company expect to find a market for it in France and Germany. Six thousand horses have already been bought for the purpose.

The American hen is worth preserving. Some one has been looking up her record and the result shows that she contributed one hundred and thirty-five million dollars' worth of eggs last year, an off year at that.

Under a new law just published, every bank in the state will be examined by a state examiner once a year. This law is designed to reach all banking institutions not chartered as national banks.

Secretary Carlisle will bolt a 16 to 1 democratic ticket. He will have plenty of company from his own party.

New York has in process of construction, nearly 35 million dollars worth of new buildings.

The British warships have sailed away from Corinto, and Nicaragua is again at peace.

Federal office holders who are not for the administration, may be out of a job.

Thatcher and Johnson Minstrels

GEORGE THATCHER and Carroll Johnson's Twentieth Century Minstrels will appear at the Myers Grand on next Friday evening. From the following comments from the Philadelphia papers, lovers of this style of entertainment can be assured that there is a rare treat in store for them.

"They took the house by storm. They were good. The whole show was good, and every one in the audience, which filled the house, said so. The programme said that 'gilt-edged minstrelsy would be presented,' and it was. Everything they said and did brought a laugh, and they were backed by a strong company."—Philadelphia North American.

"The audience was between laughter and applause all the evening."—Philadelphia Inquirer.

"Trilby's Wedding" is one of the most laughable things ever seen in this city."—Philadelphia Star.

"A performance that is well worth witnessing."—Philadelphia Bulletin.

"When the curtain rose on the beautiful 'first part' there was a hum of admiration followed by loud applause."—Philadelphia Item.

"The whole show went with a great snap and spirit."—Times.

"The best ever given in this city."—Philadelphia Call.

"I have a good mind to blow you fellows up," remarked Joseph Caldwell, aged nineteen, to F. A. Claycomb and E. O. Beach, at 3:30 o'clock this afternoon, as he showed them a bottle of powder. Caldwell was joking and to make the joke more realistic, struck a match. An explosion followed, and Caldwell's face was filled with powder and cut with flying glass, while a deep gash was also cut in his arm by a flying piece. Neither of the other men were hurt, although both had their faces well peppered with powder. Caldwell's injuries are not dangerous although he was cut severely about the face and arms. The accident occurred at their boarding house, 111 Franklin street.

NICE FAT HOGS ARE PLENTIFUL. The Janesville Stock Yards Are Overrun Today—Prices Are Very Low.

The Janesville stock yards presented a very lively appearance today. Switchmen were kept busy sidetracking cars for the unloading of stock and hogs. Most of the porkers received this morning came from the vicinity of Bass Creek and Bradford, one firm alone receiving 260 head, which will be held here until the market takes a turn for the better.

BIG NEGRO IS SENT TO A PRISON CELL

WILLIAM BATES PLEADS GUILTY TO LARCENY.

Admitted to Judge Phelps That He Stole \$25.75 From Thomas Dumphy and the Court Sentenced Him to a One Year Term—Other Crooked Proceedings.

The larceny of \$25.75 cost Will Bates one year's time in Waupun. Bates is the peculiar appearing colored giant, mentioned in the Gazette several days ago, who, hired out to Thomas Dumphy to work on a farm in Harmony, but sneaked into the house and took his employers pocket book, which contained the above sum of money and then hurried to Milwaukee, where he was arrested and brought back by Officer Cochrane. When arraigned in the municipal court this morning, he pleaded guilty to the charge, when Judge Phelps sentenced him to one year at hard labor in the state's prison. Bates appeared very contented, and told Sheriff Appleby that he expected to get longer time at Waupun than one year. He also said that when he got out of prison he was going home to live with his father at Richmond, Va.

"How old are you?" Judge Phelps asked. "Don't jest exactly know, boss," he replied. "I think Ise about forty-foh." "How old is your father?" "Kain't jest tell that eider, boss, but I reckon he's 'bout a hundred. Folks likes to be 115 years old, down dere, boss," he replied. Sheriff Appleby took him to Waupun this afternoon.

Albany Suspects at Monroe. The two men arrested here on suspicion of their being connected with the burglary of Lytle & Whalen's store at Albany are now in the Green County jail at Monroe. The evening Times says that little or nothing was known as to who the robbers were until Thursday night four men were seen taking goods into the John Broughton timber near Albany. The parties were recognized as tramps seen in that locality a few days before. Officers were put on their trail, and the next heard of them they were seen at Hanover.

"The next information, The Times says," came from Officer Hogan, of Janesville, who had arrested parties answering the descriptions telegraphed him. Deputy Sheriff Warn, of Albany, went to Janesville, and but two of them could be recognized. They were brought to this city this forenoon and as District Attorney A. S. Douglas is busy today, their examination will not be held until tomorrow. The goods have not been recovered and are supposed to be hidden in the timber. The parties are not strangers to the Janesville officers as they were held there a few months ago for stealing cutlery at Orford.

W. H. Warner the North Main street barber, is keeping his weather eye open for one of his former employees, who suddenly left the city, in hopes that the man will be able to explain how certain tools disappeared at the same time that he did.

MAY LET ALL LUNATICS LOOSE. Wisconsin Legislature May Have To Remedy a Defective Law.

There is a prospect that a special session of the legislature will have to be called in order to permit insane persons to be properly committed to the asylums. It has just been discovered that the law, which it was supposed the legislature had passed, was lost in the shuffle at the close of the session, and there is now no legal method by which the insane can be committed. There is also danger that many inmates of the asylums may gain their liberty through habeas corpus proceedings, based on the legality of commitments. Two courses only are left. An appeal to the supreme court for a decision on the constitutionality of the law or an immediate call for a special session of the legislature. It is probable that an appeal to the supreme court may first be made.

WORKED AFTER TAKING POISON. Peculiar Circumstance of the Suicide of Richard Martin at Beloit.

Richard Martin, the Beloit farmer who took poison, as stated in last night's Gazette, worked several hours after taking the drug and without telling anyone about it, before the dose was fatal. He filled his mouth with paris green and then went to a pump and drank some water. Later he was taken with a vomiting spell and at noon his wife went to empty a bucket he had vomited in and he told her to be careful where she poured it as there was paris green in it. On his wife's pressing him for particulars he told her that he had taken the drug and wanted to die. His health was not the best and it is thought that while in a despondent mood he took the fatal dose.

JANESVILLE A. P. A.'S REPRESENTED. The National Gathering of the Order in Milwaukee Today.

With the opening of the fourth annual meeting of the supreme council of the A. P. A. in Milwaukee today, at which an attendance of some 400 delegates from all the states of the Union excepting Mississippi, New Mexico and Indian Territory are expected, interest in the order arises. Janesville is said to be represented. Especially will this meeting be one of interest, as it will probably decide whether the organization will remain a secret one, or come out boldly as a political party.

WOOLEN MILL IS FLOURISHING Seventy-Five Hands Are at Work, and Business Is Good.

Business at the mill of the Rock River Woollen Company at Monterey is fairly good these days, and the company is running at full force, employing seventy-two people, and less girls are employed than men. The wages, which run from 50 cents to \$2.75 a day, is considered good pay, and there are only six hands in the mill who get less than a dollar a day; and these are mostly boys employed in the card-room. Since the starting of the mill, that part of Monterey has grown until now nearly all the employes live in the immediate vicinity of the mills. Nowadays the trampweaver begins to show up from the mills of the east. He stays about three weeks and then decamps, leaving his board bill unpaid. These occurrences have been so frequent lately that Superintendent W. H. Jones has been busy most of the time, explaining the question to the different land, ladies, who have been there in search of the men they fed.

PLANS TO FIX THE BRIDGE. The Council Talk of Repairing the Milwaukee Street Structure.

"What will we recommend in regard to the Milwaukee street bridge?" is now the question being considered by the committee on highways, streets and bridges of the Janesville common council. There are a number of propositions before the committee. One is the building of a modern steel bridge, many believing that a bridge of this kind would prove the best in the end.

SPOILED LEAF AS FERTILIZER. Old Tobacco Is Being Eagerly Sought After By Farmers.

Ever since the burning of the Tobacco Growers' Association building, the tobacco left in the ruins, has been eagerly sought after by the farmers, and the spoiled leaf which was bought by Alderman S. B. Heddles, has been gradually sold until very little is left. Each load brings a good price, the farmers claiming that it is the best fertilizing matter that they can obtain as a nominal price.

Jury Decided That the Mare Was Given the Defendant Under an Agreement For Her Use—Well Digging Case Now Before the Court.

Henry D. McKinney failed to convince the jury that he sold a mare to James Banfield for \$125, and accordingly they brought in a verdict in the circuit court in favor of the defendant this afternoon.

The case of Sherman S. Phelps against Theodore H. Bidwell was then taken up. The plaintiff brings suit to recover \$37 for digging a well for the defendant in this city. The defendant claims that the plaintiff was not only to dig the well, but furnish good water therein, which the defendant claims he failed to do. Smith & Pierce appear for the plaintiff and Sutherland & Nolan for the defendant. The case will go to the jury late this afternoon.

The next case on the calendar is that of David Conger against Winard Dingman, involving the commission on a real estate deal. During the day the jury was waived in a number of actions, while a number of cases were continued for the term.

CITY PROPERTY

"He that hath a house to put his head in, has a good head piece."

That is what the jester said to King Lear after he had divided his domain between his daughters, when they, seeming to be void of all gratitude, turned their poor old father out into the cold world.

Surely the daughters of Janesville would not be guilty of such an act even if their fathers were to put the titles to houses in their names.

Look at our houses, take the title to yourself, and we would suggest that as an investment or saving fund for wife, daughters, or any one, we think our plan of selling houses affords an excellent chance of earning interest on the money you have invested, together with the Saving Fund feature of being able to pay something on account from time to time.

No trouble to talk over all plans with any one.

A QUIZER WAY TO TELL TIME.

How It May Be Done With a Stem-Winder in the Dark.

"What time is it?"

"I think I can tell you without looking."

He drew out his watch and held it up close to his ear and slowly turned the stem-winder. "One, two, three, four, five, six, seven, eight," he counted, and then said: "That means seventy-two minutes. I wound the watch up tightly at 3 o'clock, and so the time ought to be about 12 minutes past 4. Let's see how near I came to it. Well it's 4:18—I was only six minutes off."

The other was regarding him with amazement. "Do you mean to say that you can tell the time of day by winding up your watch?"

"Not exactly, but I can come mighty near it; usually within ten minutes, and it's very simple, too. All you have to know is how long one tick in winding up will run the watch. I'll explain to you. Suppose that at 3 o'clock I wind up my watch until it is tight, as we say; that is, until another turn of the winder would apparently break a spring. At 5 o'clock I wind the watch again and find that the winder clicks twelve times before the watch is wound up to the place where it sticks. Then you know that twelve clicks will run the watch 120 minutes, and that one click represents ten minutes of time."

"What good is it to know that?"

"Well, suppose you go to bed at 10 o'clock to-night and on retiring wind up your watch and put it under your pillow. During the night you wake up and wonder what time it is. You don't want to get up and light the gas. All you have to do is to pull that watch out from under the pillow, hold it to your ear and count the ticks as you wind. If you count eighteen, then you know that the watch has run down 180 minutes since 11 o'clock, and that the time must be very near 2 o'clock. To be sure, you can't tell the exact time, but you can generally get within a quarter of an hour of it."

"Wouldn't the same rule hold good for a clock or a watch that is wound up with a key?"

"I dare say it would, but I never tried it on anything except a stem-winding watch. I know a blind man who always tells time by winding his watch and counting the ticks. His sense of touch is quite delicate and he can wind up his watch three or four times a day and then calculate within ten minutes of the correct time.—Chicago Record.

CHAMELEON SPIDER.

An Insect Which Changes Its Color at Will—Its Delicate White Web.

"It has always been a hobby of mine," said T. L. Grimshaw of Raleigh, N.C., to a reporter, "to collect strange bugs and insects during my travels, and I think I have succeeded in getting together a pretty choice collection. Of the whole assortment I think the chameleon spider, which I got last summer on the coast of Africa, is the most valuable. The capture of the insect was highly interesting to me. One afternoon, while tramping along a dusty road, I noticed in the bushes which grew along the side what appeared to be a white flower with a blue center. Stopping to examine it I found to my astonishment that it was not a flower at all, but a spider's web, and that the supposed light blue heart of the flower was the spider itself, lying in wait for its prey. The mottled brown legs of the spider were extended in such a way as to resemble the divisions between the petals of a flower."

"The web itself, very delicately woven into a rosette pattern, was white, and the threads that suspended it from the bushes were so fine as to be almost invisible. The whole thing had the appearance of being suspended in the air upon a stem concealed beneath. Upon knocking the spider from his perch into the white gauze net which I carried, my surprise was greatly increased upon seeing my captive instantly turn in color from blue to white. I shook the net and again the spider changed color, this time its body becoming a dull greenish brown. As often as I would shake the net just so often would the spider change its color, and I kept it up until it had assumed about every hue of the rainbow."

American Publications.

It is interesting to note the enormous increase the business of publishing newspapers and periodicals has undergone in this country during the last twenty years. It is without parallel anywhere in the world. Statistics show that in 1870 there were 5,871 publications; now there are 20,000, "varying from daily to quarterly." Of this total 1,885 are dailies, and 14,077 weeklies. In 1890 the aggregate capital represented by those publications was about \$105,000,000; to produce them, 106,095 persons were employed; the wages paid amounted to \$70,000,000 per annum, while the material used cost \$10,000,000.—Philadelphia Record.

MONEY MADE AT HOME.

Last month I cleared, after paying all expenses, \$25.38, the most before \$18.36 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a 20-cent dish washer was never before placed on the market. With the perfection, which sells for you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work they want one, and that is why so much money can be made at home. For full particulars address The People's Mfg. Co., Station 6, Hurdwood, Ill. I feel confident that every gentleman, in any location can make \$50-\$100 a day, as every family will very soon have a dish washer. Try and publish your own notice for the benefit of others. A. M. E. O.

SEASONABLE DETAILS.

Spangled Wings and a Profusion of Flowers—Big Buckles.

Braiding is very fashionable, and some of the new braids made for that purpose are wonderfully fine and effective. They are often interwoven with metal and sometimes seed pearls are made a feature.

There will probably be a return to the smart short jackets fully basqued with skirts of the same stuff. In Paris they have been in fashion all the winter. They usually have very striking lapels, much ornamented.

There are straw hats and bonnets to match all the light, clear tints now fashionable in dress materials. Red, pink, violet, green, gold and brown are seen in different shades. The favorite adornment in millinery is flowers—lilies, jonquils, poppies, roses and lilies of the valley, with leaves of green and purple. Spangled wings of gauze and net, with other light brilliant metallic effects, are much employed, as are changeable taffeta ribbons.

Waist belts for blouses can be very ornamental—those in jeweled passementeries especially so. Great double buckles are also worn with blouses, of paste or fancy metal. They are much used with opera wraps, a little below the neck, in the center.

TAILOR GOWN.

ter of a huge flat bow winged out. Charming little sort of de bails are made of the finest cloth, crosscut, in two capes or three. They are ornamented in front with passementerie and usually have a rich choux on each side of the neck. They are almost always in neutral tints—dove, gray or fawn.

Changeable effects will be much seen in summer toilets. These effects are most satisfactory in silken fabrics. Light tissue of all kinds will be worn, taffetas, thin crepons and many plain, striped or figured varieties of goods. They are trimmed with long bows or knots of ribbon, lace applications or embroideries more or less combined with beads or spangles.

The gown shown in the sketch has a skirt of white cloth, with a narrow, stitched band of beige cloth around the lower edge. Over this is a second, shorter skirt, open at the side seams, of beige cloth. The upper part of the bodice is fastened with light horn buttons. The tight bodice is double breasted, with white cloth revers and open in front to show a full chemise of pink mousseline de soie. The gigot sleeves are of beige cloth.

USES OF LACE.

Smart Fichus—The Flood of Brilliant Colors.

Lace is profusely used, and of exquisite quality. The cravat of lace is simply a scarf of 2½ or 3 yards long and half a yard or more in breadth. A make of lace greatly used closely resembles the Limerick product—the light and thready description. It is extremely elegant when a quantity is required, as it "goes into nothing," while the heavier kinds are thick and do not stand ruffling well. These cravats are twisted round the neck in carriages, or in the promenade, or thrown over the head and draped gracefully on the shoulders for theaters and concerts. Lace enters largely into every part of a French lady's toilet, from the bed jacket to the elaborate and voluminous tea gown. The fichus are particularly smart, and the collars, in every device, ravishing. The jeweled and beaded lace insertions make lovely collars, with deep falls of fine lace drooping over the full sleeves.

Clear and brilliant tints are the extreme of fashion and people of quiet tastes are entirely lost in the sea of color which is flooding us. However, a knot or choux here and there of some bright shade is enough.

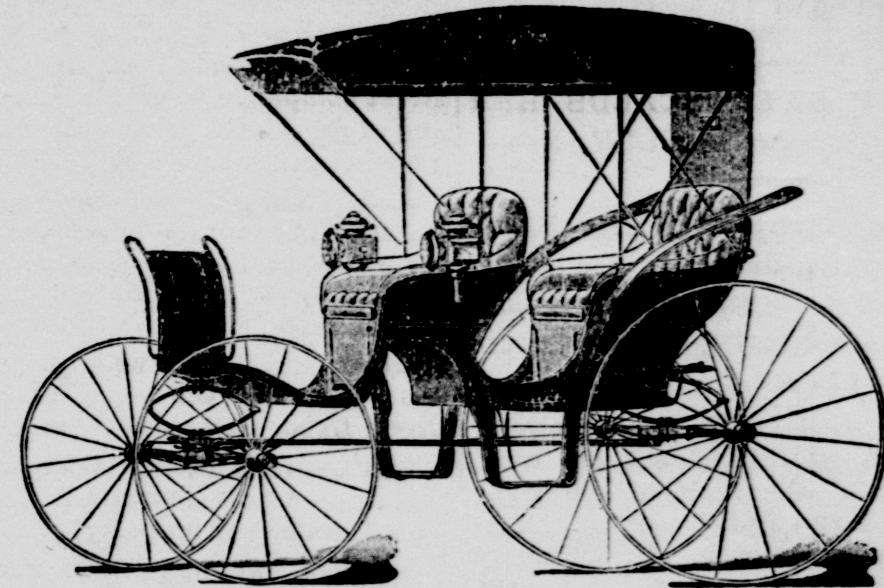

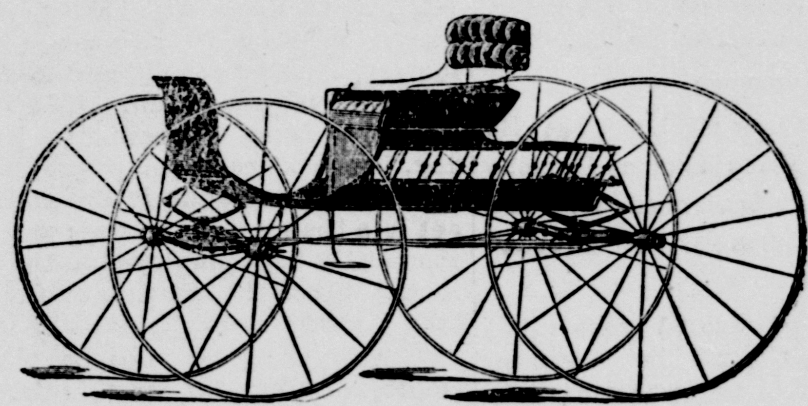

GIRLS' COSTUMES.

to bring costumes of dull and mode tones into line with fashion, or a cluster of gay flowers may be worn, large and vivid enough to impart character to the gown. The putting of wires in the hem of skirts is a custom more honored in the breach than the observance. Wire makes the folds angular and unmanageable and its use tells all too plainly that the wearer is trying to get a fashionable effect without going to the expense of buying the necessary haircloth.

The illustration shows two pretty gowns for girls from 12 to 14 years old. The first is of blue and white striped crepon. The godet skirt has a ruche of blue satin around the foot and occasional knots of the same material. The bodice has a square lace guimpe framed by a satin ruche. Breasted of satin are crossed in front and fastened under the belt, which has a knot and long ends. The balloon sleeves have deep cuffs and lace epaulets. The second gown has a godet skirt of silver gray crepon with a bias band of emerald velvet around the foot, below which is a narrow edge of white guimpe. The box plaited blouse has a round yoke of guimpe surrounded by a band of velvet and a narrow guimpe edge. The balloon sleeves are also box plaited and have deep velvet cuffs.

Seagulls on the Thames.

Seagulls have since the beginning of February been flocking to the Thames between the bridges, and had become so tame that they would fly to catch the chopped fish and pieces of bread thrown to them from the embankment. Last Sunday night a flock of these birds foretold Monday's thaw by suddenly flying off down the river in a body at about 6 o'clock in the evening. Their instinct enabled them to beat the meteorological department at its own game, and to recognize that more open weather was at hand.

A Brave Man.

In the window of a Boston chemist appears the sign: "Spirits of all kinds sold here." A joker passing by thought it would be very funny to go in and ask him to sell him some "malignant spirits." The chemist, without a moment's hesitation, turned to an assistant and gave the order in an imperative tone:

"Thomas, run up to the second floor and tell my wife's mother to come down at once. Here is somebody who wants to buy her."—Texas Siftings.

Her Error.

"Tell me all," the pastor urged kindly. "I put a button in the contribution box," she faltered. He smiled. "And did your conscience trouble you?" he asked. The woman raised her eyes earnestly. "No," she answered. "I put in the wrong button and broke a set, and I would like to exchange it, if you please."—Detroit Free Press.

A Hint to the Penniless.

Experienced Tramp—Hello! we're in luck. I hear a husband and wife quarreling in this house. I'll wait until he comes out.

Fresh Tramp—Wot good'll that do? Experienced Tramp—I'll tell him I'm a wanderer over the face of the earth because I can't live with my wife, and he'll give me a dollar.—Texas Siftings.

A Rocky Road.

Editor Hightone Magazine—I have examined your manuscript, sir, and find it a thrilling narrative, which arrests attention at the start and holds it spellbound to the end.

Struggling Author (despairingly)—Then, of course, it won't do.—N. Y. Weekly.

More Than He Could Stand.

Judge—How did the man libel you? Applicant for Warrant—He called me a beggarly politician, yer honor.

Judge—The word beggarly is hardly libellous.

Applicant for Warrant—It ain't that, yer honor; it's the word politician that I want satisfaction for.—N. Y. World.

An Insinuation.

"The price of beef is going up fearfully," said the restaurant keeper. "You have no idea of the prices now charged for choice cuts." "Humph," said the patron grumpily, as he struggled with a refractory steak. "I don't see how that is going to affect you."—Chicago Record.

Remember the Sabbath Day.

Husband—Wife, hand me out my Sunday coat. Wife—But, my dear, this is not Sunday, it is only Saturday. "I know it's only Saturday, but I'm going to attend a fashionable dinner, and it will be Sunday before I get back."—Tammany Times.

She Might Risk It.

"I read in the paper that Queen Victoria never rides in a street car," said Mrs. Snaggs. "She need not be afraid to try it," replied Mrs. Snaggs. "Almost any man would get up and give his seat to a lady of her age."—Pittsburgh Chronicle-Telegraph.

Profit in His Adversity.

Editor—It was the making of Jokers to get married. Assistant—Is that so? Editor—Yes. He makes a good living now by jotting down the sarcastic remarks that his wife makes to him!—Town Topics.

Why He Gave It Up.

"Jones, why don't you go to work and earn a living?" "My dear Smith, what's the use? I tried it once for a little while, and no sooner did I earn a dollar than I had to spend it. So I gave it up."—N. Y. Recorder.

Fly.

"Should I fly with Edwin, papa. Would the bills be paid by thee?" The old man sternly chided her. And said: "No flies on me!"—Puck.

THE COOK'S ALTERNATIVE.

Bridget—Mr. Bildad, yer wife come into the kitchen this mornin' and insulted me, an' it's wan av two things—either she laves this house or I does.—Judge.

Supplying a Deficiency.

Hazel—Gilson has taken such an interest in his typewriter he is educating her. Nutte—What is she taking? Hazel—A course in spelling.—Brooklyn Life.

Evidence of Her Intention.

"Mrs. Van Millions is going on the stage." "Why, who told you so?" "Nobody. But she's just begun suit for a divorce."—Chicago Record.

New Blood.

Cross—What does Sellers mean by advertising "New blood in the business?" Blackwell—Why, didn't you hear? He's taken his wife's rich old grandfather into the firm.—N. Y. Weekly.

A Truthful Boy.

Mrs. De Fad (in bric-a-brac shop)—You have a beautiful collection of antiques here.

New Boy—Yes'm, we have all the latest novelties.—N. Y. Weekly.

His Wife's Position.

"Now," said the bridegroom to the bride when they returned from the honeymoon trip, "let us have a clear understanding before we settle down to married life. Are you the president or vice president of this society?"

"I want to be neither president nor vice president," she answered. "I will be content with a subordinate position."

What is that?

"Comptroller of the treasury."—Texas Siftings.

Utterly Disabbling.

"Talking about your mean men!" exclaimed the traveler who grows indignant easily. "I've struck the e pluribus unum par excellence of the whole outfit in that line of human nature."

"What does he do—rob the contribution box in church?"

"If he doesn't it's because they won't let him. He's so mean he won't even promise to pay what he owes."—Merchant Traveler.

Too True.

Squander, and friends flock 'round you. They leave when your money's gone; Drink, and the world drinks with you. See snakes, and you see 'em alone.

—Kansas City Journal.

Gentleman—What did you knock that little boy down for and then jump on him?

Small Boy—Well, I couldn't jump on him 'fore I knocked him down, could I?—Brooklyn Life.

DR. P. H. SHARP

The Most Successful Specialist in All Nervous, Private and Chronic Diseases of Men and Women.

Dr. Sharp has for 20 years made a Special Study and Practice of these Maladies which have proved such stumbling blocks to the medical profession. More failures are recorded in these three lines of practice than in all the 1000 remaining diseases to which the human race is subject.

The doctor's success is phenomenal in his chosen field.

He Absolutely Cures 98 per cent of the cases he accepts for treatment.

This high percentage is in part due to his rejection of all incurable ones. So there are no experiments and but few failures.

YOUNG MEN troubled with results of younger indiscretions can be safely and surely cured. I know it.

MIDDLE-AGED MEN can have a new lease of vitality. OLD MEN can take a new hold on life and its joys.

WOMEN can find not only relief but positive cure for their many annoying and dangerous ailments.

Leucorrhoea, Painful Menstruation, Delayed or Obstructed Menstrual Periods, Headaches, Ovarian Inflammation, Etc.

FREE TREATMENT.

For one week, commencing Thursday, April 4, Dr. Sharp will give free treatment to all patients till they are cured.

Friedling Charged with Bribery.
Kansas City, Mo., May 8.—At an open meeting of the Kansas City, Kan., board of education a sensation was created when Benjamin Friedling, president of the board of trade and owner of the Consolidated Electric Light works, was accused of bribery. It appears that when the question of appointing a city superintendent was up recently the board of trade sent a committee to the board of education to urge delay. Harry Bell and William Fletcher, reputable citizens, declared that Friedling had openly offered them money to cause a postponement of the appointments. An investigation has been ordered.

Want Memorial Day Sacred.
Lancaster, Pa., May 8.—A convention of representatives of the Grand Army posts of Lancaster county was held yesterday and a series of resolutions adopted condemning the desecration of Memorial day by base ball games, picnics and excursions, and appealing to patriotic citizens to discourage the practices, to the end that the day may be preserved for the purpose intended by its illustrious founder.

Novel Method of Suicide.
Charlottesville, Va., May 8.—A singular means of suicide was adopted by Lewis Garrison, whose body was found yesterday near the University of Virginia. The autopsy disclosed the fact that the man had met death at his own hands by inserting in his body a piece of gas pipe filled with powder and slugs. This charge he exploded with a match. The lower part of his body was terribly mutilated.

To Suppress the Black Flags.
Hong Kong, May 8.—Five thousand troops have started from Canton for the island of Formosa, in order to suppress the anticipated opposition to the Black Flags to the occupation of that island by the Japanese according to the terms of the treaty of peace between China and Japan. Many of the troops are unreliable and liable to join the Black Flags.

EH!

"Going to run us out of town"—are they. "Can't last long," "new broom," etc. Some idiotic expressions concerning Bolles. Heard 'em in Chicago. My what a lot of talking some people "do do." We must worry some people very much; sorry! What a thorn in the side we must be. Sorry we broke down the wall of high prices. Sorry I can't agree to join the combination and charge the people 25 per cent more for their clothes. But thanks, thanks awfully for the generous amount of free advertising we have received.
